

Network location platform

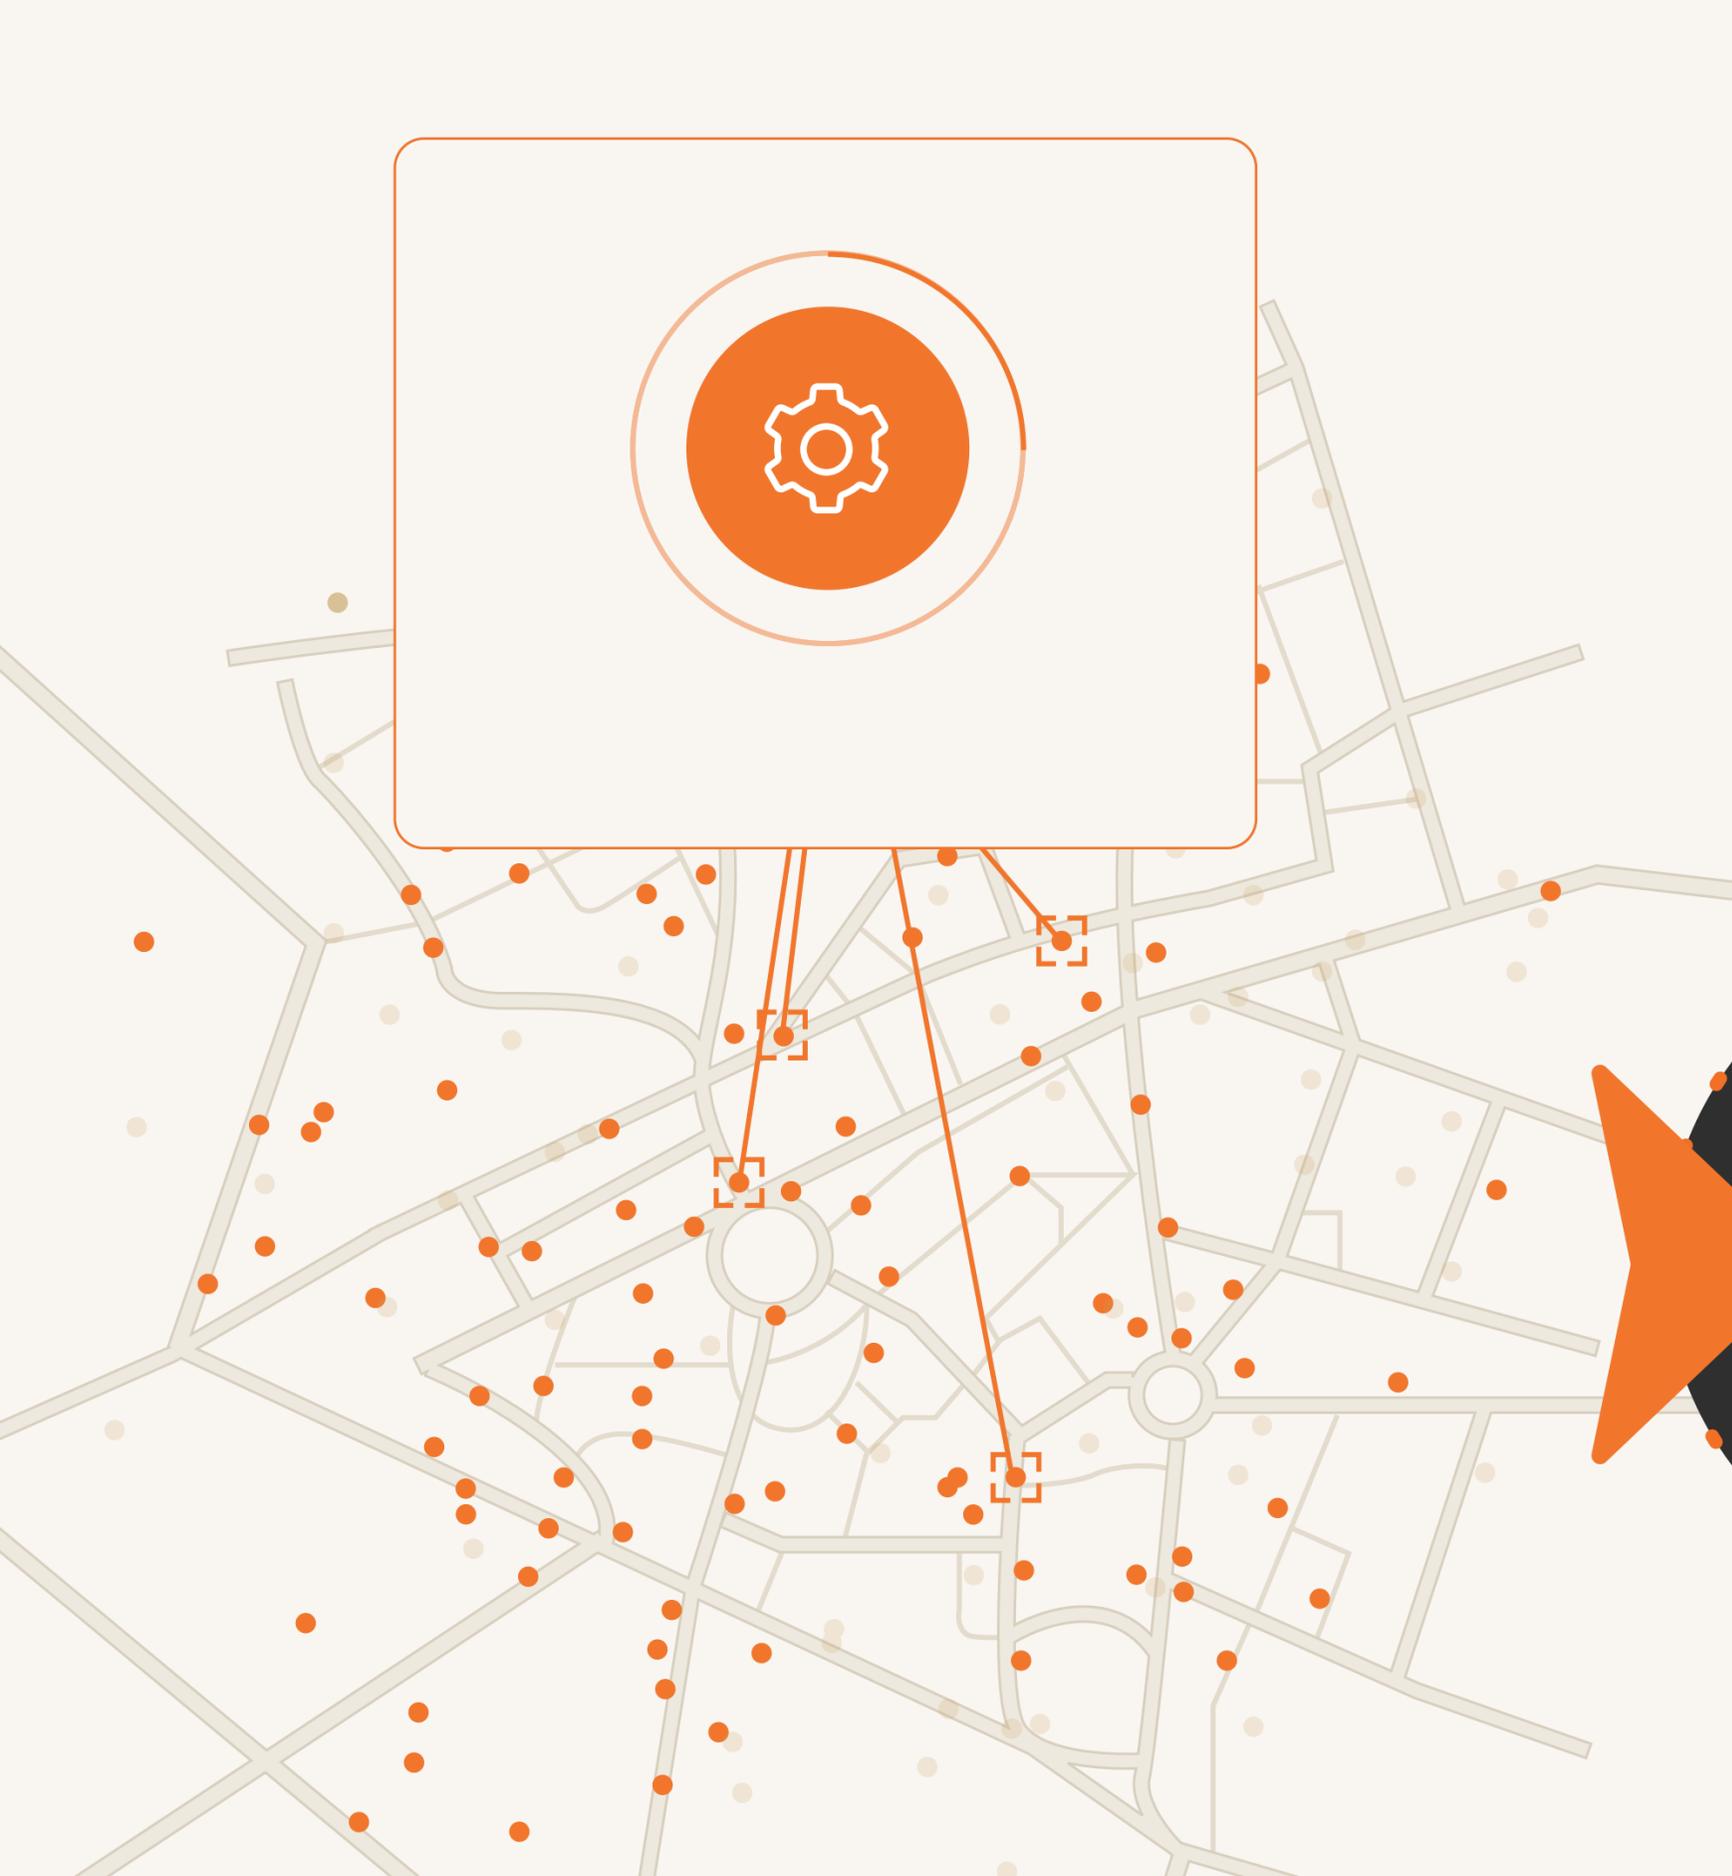

Geolocation is ready for prime time.

With innovative technologies
come new standards

**Every release increases
the level of LOCATION
ACCURACY**

On-demand geolocation

Identification of the location of a given SIM card.

MEET REGULATORY COMPLIANCE

-  Emergency calls
-  Fraud detection
-  Police investigations

Mass geolocation

Location data is carried through mobile networks to provide mobile connectivity.

Our platform extracts this location continuously for all subscribers.

Geolocation

At scale

In real-time

UNLOCK NEW REVENUES

Geoanalytics and TV-statistics

Location-based ads & contextual marketing

Alerting at scale & situational awareness

Advanced police investigations

COMBINING ON-DEMAND AND MASS GEOLOCATION TECHNOLOGIES...
